

# TITAN SERIES DIVERTER VALVE

[www.vortexvalves.com](http://www.vortexvalves.com)

**VALVE SIZE:** 6" (150 mm)

**HANDLING:** Silica Sand

**LOCATION:** Specialty Glass Manufacturer  
Central US

**FEATURES:** This Vortex Titan Pivoting Chute Diverter was manufactured with inlet chute, pivoting chute, and outlet legs lined with Tivar® 88 material.

**DETAILS:** Tivar® 88 is an abrasion resistant material that also provides steady material flow because of its low surface friction. It was specifically requested by the customer.

The customer especially liked the features offered by the Pivoting Chute for this application.
